## PROFESSIONAL SUMMARY

Backend Software Engineer with experience in building scalable SaaS platforms and enterprise systems using C# and .NET. Skilled in developing secure, high-performance APIs and applications supporting thousands of users. Adept at translating business requirements into reliable technical solutions that improve efficiency, stability, and user experience.

## TECHNICAL SKILLS

**Programming Languages:** C# (.NET), JavaScript, Typescript

**Frameworks & Tools:** ASP.NET Core, .NET Web API, Blazor, MVC, EF Core, Dapper, RabbitMQ, Docker, Swagger

**Web Technologies:** HTML, CSS, Tailwind CSS, Bootstrap

**Databases:** MS SQL Server, PostgreSQL, SQLite, MySQL, MongoDB

**Version Control:** Git, GitHub, BitBucket

**Other:** Agile methodologies, CI/CD, Redis, Identity/OAuth

## PROFESSIONAL EXPERIENCE

### Pillarsalt Solutions

July 2024 - July 2025

#### Software Engineer - Contract

- Spearheaded the end-to-end development of a Cash Management System used by 5,000+ users, improving transaction accuracy by 98% and reducing reconciliation time by 40%.
- Designed and delivered a Vehicle Management System supporting 3,000+ fleet assets, streamlining maintenance scheduling and reducing downtime by 30%.
- Managed full SDLC for multiple enterprise apps, coordinating teams of 5–10 developers and achieving 99.9% uptime post-launch.

### Trez Tech

January 2024 - June 2024

#### Software Engineer - Contract

- Implemented a robust authentication system with Microsoft Identity & role-based access control, improving security and user management by 40%.
- Built efficient product management features (pagination, filtering), increasing data retrieval speed by 25%.
- Created comprehensive API documentation with Swagger, reducing onboarding time for new developers.

### AcrossMart Ltd

October 2022 - December 2023

#### Software Developer | Full-Time

- Oversaw the technical development of an e-commerce platform using WordPress, WooCommerce, Elementor, Dokan, custom CSS/JS.
- Reduced page load time by 76% through code optimization and image compression.
- Collaborated with cross-functional teams to ensure seamless integration of front-end and back-end systems.

### Zenith Computer Institute

March 2022 - October 2022

#### Software Developer | Full-Time

- Contributed to the development of a digital learning platform serving 130+ students.
- Built responsive, user-friendly interfaces with HTML5, CSS3, Tailwind CSS, ES6+ JavaScript.
- Streamlined internal dev processes, achieving cost savings of approx. ₦600,000.

### Hygrade Business Ventures

January 2020 - December 2020

#### Front-End Developer | Full-Time

- Designed and developed responsive, accessible websites with consistent branding across devices.
- Improved development workflows with industry best practices, contributing to a 120% increase in customer satisfaction.

## SELECTED PROJECTS

### EbeeGadgets (Device-Level Inventory Management System)

- Built a specialized system for serialized electronics, tracking devices by IMEI, serial, or MAC.
- Tech: .NET 8, EF Core, SQL Server, MVC
- Implemented advanced real-time authorization for granular permission control
- Delivered audit-ready logging and full ownership history
- Result: Reduced record-keeping errors by 70% and improved compliance

### Kano State College of Health Science & Technology Portal

- Full-stack academic portal for online registration and admin workflows
- Tech: ASP.NET Core MVC, SQL Server
- Features: role-based access, session/semester management, dynamic registration
- Result: Streamlined admissions for 30,000+ applicants yearly, cutting processing time by 50%.

### GSMBazaar

- Developed the backend of a classifieds marketplace exclusively for mobile devices
- Tech: ASP.NET Core MVC, EF Core, Redis
- Built vendor & admin dashboards, caching for speed, and anti-spam reporting systems.
- Result: Reduced spammy ads by 40% and cut page load times by 60%.

### Snackify

- Built a mobile-first snack availability notifications platform connecting vendors with customers
- Tech: .NET 8 Web API, PostgreSQL, React Native, FCM
- Implemented real-time vendor-to-customer notifications
- Result: Adopted by 100+ local vendors, with 3,000+ active customers receiving instant updates

### POS Terminal Management System

- Enterprise-grade POS management solution
- Tech: .NET 8, EF Core, SQL Server
- Features: wallet management, dispute resolution, audit logging, fraud detection
- Result: Adopted by 5,000+ users, improved accuracy by 98%, reduced reconciliation time by 40%.

### CodeStash

- Secure code snippet management & sharing platform
  - Tech: ASP.NET Core MVC, SQL Server, Identity
  - Features: snippet sharing, search filters, syntax highlighting (40+ languages).
  - Implemented OAuth (Google/GitHub) and advanced caching strategies
  - Result: Improved snippet retrieval speeds by 65%.
- 

## EDUCATION

**Certificate - Software Engineering (2022 - 2025)** | Trask Global

**Nanodegree - Intro to Programming (2023)** | Udacity

**Bachelor of Science (B.Sc.) - Biology (2016 - 2022)** | Kano University of Science and Technology, Wudil

**Diploma - Computer Science (2019)** | Hygrade Business Ventures
