## PROFESSIONAL SUMMARY

Software Engineer with years of experience in C# and .NET, focused on building scalable and secure Web APIs using ASP.NET Core. Skilled in delivering efficient, maintainable code that directly supports business goals. Strong problem-solving abilities and a team-oriented approach to ensure on-time project delivery and success.

### **TECHNICAL SKILLS**

Programming Languages: C# (.NET)

Frameworks & Tools: ASP.NET Core, .NET Web API, Blazor, MVC,

Bootstrap, EF Core, Dapper, xUNIT, RabbitMQ, Docker

Databases: MS SQL Server, PostgreSQL, SQLite, MySQL, MongoDB

Version Control: Git, GitHub, BitBucket

Web Technologies: HTML, CSS, JavaScript, TypeScript, Tailwind CSS

#### **SOFT SKILLS**

- Communication
- Collaboration
- · Attention to Detail
- · Agile Methodologies

#### PROFESSIONAL EXPERIENCE

Trez Tech January 2024 - June 2024

### Software Engineer - Contract

- Implemented a robust authentication system with Microsoft Identity and role-based access control, improving security and user management by 40%.
- Implemented efficient product management with pagination and filtering, increasing data retrieval speed by 25%.
- Utilized Swagger for comprehensive API documentation, streamlining developer onboarding and API maintenance.

AcrossMart Ltd October 2022 - December 2023

## Software Developer | Full-Time

- Oversaw the technical development of the e-commerce platform, utilizing WordPress, WooCommerce, Elementor, Dokan, and custom CSS and JavaScript to optimize website performance.
- Reduced page load time by 76% through code optimization and image compression techniques, resulting in a significant improvement in user experience.
- Collaborated with a cross-functional team to ensure seamless integration between the front-end and back-end systems.

#### **Zenith Computer Institute**

March 2022 - October 2022

## Junior Software Developer | Full-Time

- Assisted in the development and implementation of the institute's digital learning platform, focusing on user experience and accessibility for students.
- Utilized modern front-end technologies like HTML5, CSS3, Tailwind CSS, and JavaScript (ES6+) to create a responsive and user-friendly platform for 130+ students.
- Contributed to streamlining internal processes within the software development department, resulting in cost savings of approximately \(\frac{1}{2}\)600,000.

## **Hygrade Business Ventures**

January 2020 - December 2020

## Front-End Developer | Full-Time

- Designed and developed responsive, accessible websites for Hygrade Business Ventures, ensuring consistent brand presentation and optimal user experience across all devices.
- Implemented industry-standard web development practices to streamline website development workflows, contributing to a 120% increase in customer satisfaction.

## **PROJECTS**

## INFINION WEB API (C#, .NET Web API, SQL Server, Microsoft Identity, Mailkit)

- Developed a RESTful API supporting user authentication, role-based access control, and CRUD operations.
- Implemented pagination and filtering to optimize product data retrieval.
- GitHub Repo

## Online Application Portal - Kano State College of Health Science and Technology (ASP.NET Core MVC, SQL Server)

- Developed a full-stack web portal to support online student registrations and administrative workflows.
- Integrated session/semester management, dynamic registration periods, and user role management.
- Improved operational efficiency and digital access for prospective students.

## CodeStash (ASP.NET Core MVC, SQL Server, Identity)

- Built a secure, full-featured platform for managing and sharing code snippets.
- Supported public/private snippet visibility, version history, and a user dashboard with bookmarks.
- Designed an intuitive UI for fast searching, organizing, and editing snippets.

## POS Terminal Management System (C#, .NET 8, Entity Framework Core, SQL Server)

- Built a role-based access control system to manage POS devices, branches, and merchants securely.
- Integrated wallet management, audit logging, and dispute resolution modules.

## Clinch Delicacies (ASP.NET Core, .NET 8, SQL Server, Swagger)

- Designed an e-commerce API with secure authentication and role-based authorization.
- Developed a modular architecture with scalability and maintainability in mind.
- · Comprehensive API documentation using Swagger.

## **EDUCATION**

Certificate - Software Engineering (2022 - Present) | Trask Global

Nanodegree - Intro to Programming (Aug - Nov 2023) | Udacity

Bachelor of Science (B.Sc.) - Biology (2016 - 2022) | Kano University of Science and Technology, Wudil

Diploma - Computer Science (Jan - Dec 2019) | Hygrade Business Ventures
